SUMMARY

Computer Science graduate with hands-on experience building production web applications, automation workflows, and AI/data-driven projects. Experienced with React, TypeScript, Node.js, Python, AWS Lambda, REST APIs, debugging production issues, and writing automated tests. Strong problem-solving skills, fast learning ability, and practical experience working in a startup development environment.

EDUCATION

B.Sc. in Computer Science - The Open University of Israel

2021 - 2025

Relevant Courses: Data Structures (86), Algorithms (91), Systems Programming Lab (82)

Academic Projects:

- **Artificial Intelligence Seminar (Grade 94):** Reviewed CNN, U-Net, ResNet, and Transformer architectures for glioma detection, segmentation, classification, and prognosis using MRI imaging.
- **Data Science Workshop (Grade 96):** Built end-to-end data science projects including EDA, feature engineering, supervised/unsupervised learning, deep learning, and model evaluation on real-world datasets.

EXPERIENCE

Software Engineer (Intern) | Brinker AI

March 2026 - Present

- Developed and shipped production web features using React, TypeScript, Node.js, AWS Lambda, and WebSocket.
- Implemented browser-native translation for Chrome and Edge, reducing backend translation processing costs by approximately 80% for supported-browser customers.
- Diagnosed and resolved production crashes, UI bugs, and customer-facing issues using LogRocket session recordings, improving debugging workflows and product stability.
- Refactored production code and added automated tests with Vitest to improve maintainability, test coverage, and release confidence.

PROJECTS

Spinal Cobb Angle Regression - TensorFlow, OpenCV, Python

- Built a multi-input deep learning model combining X-ray images, segmentation masks, and geometric features for medical image analysis.
- Achieved a test MAE of 2.78°, outperforming Linear Regression and Random Forest baselines

GitHub:[spinal cobb](#)

TECHNICAL SKILLS

Programming Languages: JavaScript, TypeScript, Python, Java, SQL, C

Frontend: React, Next.js, HTML, CSS, Tailwind CSS

Backend: Node.js, FastAPI, REST APIs, SQLite, AWS Lambda

Testing & Automation: Vitest, Playwright, Postman

AI & Data: TensorFlow, PyTorch, Scikit-learn, Pandas, OpenCV

Tools: Git, Linux, LogRocket, Mixpanel, Linear, Cursor, Claude CLI

MILITARY SERVICE & AWARDS

Completed full military service in Gadsar Golani and continue to serve in active reserve duty (500+ reserve days).

Awards:

- **Excellence Award** – Combat Training Course (2016)
- **Excellence Award** – Golani Brigade (2017)
